- **Live chat support** in the Crypto.com app
- **Help Center:** <https://help.crypto.com>
- **Email support** (for escalated issues via ticketing system)

Stay Safe: Avoid Crypto.com Support Scams

Because of the high value of digital assets, **Crypto.com users are often targeted by scammers** posing as support agents. These fraudsters aim to steal login credentials, two-factor authentication codes, or seed phrases.

To protect yourself:

- **Never share your seed phrase or private keys**
- Only use support links from the official Crypto.com app or website
- Don't trust random support numbers found on Google or social media
- Be wary of Telegram or WhatsApp "agents" offering help

Legitimate **Crypto.com customer service** will never ask for sensitive information.

- Crypto.com support number
- Crypto.com customer service

- Crypto.com support team
- Crypto.com live chat support
- Crypto.com technical support
- Crypto.com account recovery
- Crypto.com withdrawal issue

Additional Crypto.com Support Resources

In addition to in-app live chat, you can find help through:

- The **Crypto.com Status Page** to check if services are down
- **Community forums** like Reddit or Telegram (for general advice only)
- FAQs and tutorials in the official Help Center
- Social media channels (Twitter: @cryptocom)

These resources can help resolve most non-urgent problems and provide useful updates.

Final Thoughts

Crypto.com is a powerful platform, but like any tech product, issues can arise.
